

People are suffering. Health insurance costs are too high. Access to care is unfair. Drugs are too expensive. Medical bills are the most common cause of personal bankruptcies in the United States. People are forced to choose between food and medicine.

We can fix this, you and me.

The Smart Care Amendment (SCA) to the US Constitution will offer everyone, poor and rich, the same high quality health care and do it for less cost. No more special deals for Congress. This way, they will receive the same basic health insurance plan as you and me.

Our Secret Weapon

*The generous, welcoming,
and loving People of the
United States of America*

*Hold a flame alight for those who
have suffered from inadequate care*

The SCA will protect your privacy, limit special interests, and create a national legal framework to:

- Give everyone the same basic insurance (Medicaid, Medicare, Private, TriCare)
- Make data privacy a right
- Increase competition in health insurance markets (more choice)
- Reduce special interest influence
- Force Congress to use the same health insurance as we do
- Transition to healthy living & advanced care planning and away from “sick care”
- Reduce pork-barrel spending (earmarks) with a line-item veto

The solution is a new system that empowers individual choice and creates incentives for innovation to produce higher quality care. The SCA will make it happen and also adds direct democracy to the US Constitution so citizen initiatives can petition for nation-wide referendums for changes to national health insurance policy. It improves Privacy Rights to protect personal information, such as image, location, phone, Internet, financial, and educational information. This even protects us against unauthorized data uses in emerging technologies such as the “Internet of Things”, “big data” tracking, and all the new surveillance systems. In order to fix our health care systems, the SCA reduces the influence of special interest groups, the root cause of many of the problems. Congressional pork-barrel earmarks are also reduced with a Line-Item Veto clause that gives Presidents a veto over items in spending bills. Visit the SmartCareAmendment.org website for more information.

Member's Pledge: I solemnly swear to support and campaign for passage of the Smart Care Amendments to the Constitution of the United States of America. In my heart, I hold a flame alight for those who have suffered from inadequate care and lost the privileges of a healthy life, one of the dear Blessings of our hard fought Liberties. Together everyone achieves more as we benefit from better, more equitable care (=+) bringing compounded returns (\$) to our economy as a stronger, happier, healthier Nation (♥). I look forward to that day when these important rights for the general Welfare become a part of our Constitution.

Smart Care Amendment Clauses

- Privacy Rights
- Uniform Health Insurance
- Direct Democracy (Referendums)
- Government Integrity
- Health Care Price Transparency
- Line Item Veto
